🏠 SUMMARY

- Detail-oriented Laravel Developer specializing in building scalable, full-stack solutions and dynamic web platforms.
- Expert in leveraging PHP and MySQL to develop custom application logic, alongside a strong command of front-end technologies for responsive, user-centric design.
- Experienced in managing the full development lifecycle, from database architecture to deployment, while ensuring high performance and code quality.
- Dedicated to solving complex technical challenges and delivering seamless digital experiences.

🧰 WORK EXPERIENCE

Laravel Developer, Zener Techies LLP, 📍

05/2025 – 03/2026

Gurgaon

- Developed and maintained high-performance full-stack web applications utilizing Laravel, PHP, and JavaScript.
- Engineered responsive user interfaces and architected scalable database solutions for diverse real-world platforms, including Lead Management Systems, Resume Builders, and Job Portals.
- Collaborated within cross-functional teams to troubleshoot complex issues, optimize system performance, and deliver robust features while adhering to clean code standards and industry best practices.

🧠 SKILLS

Full-Stack Web Development

Build complete web applications using Laravel for backend and HTML, CSS, JavaScript, and Bootstrap for frontend.

CRUD Operations

Implement Create, Read, Update, and Delete functionality using Laravel Eloquent ORM and MySQL databases.

Database Management (MySQL)

Design and maintain relational databases, write optimized SQL queries, manage joins, indexes, and perform CRUD operations for Laravel applications.

MVC Architecture

Develop organized, scalable applications using Laravel's Model-View-Controller structure for clean code separation.

Secure Authentication

Implement login systems, role-based access, password hashing, and session management using Laravel security features.

Version Control (Git)

Track code changes, manage repositories, collaborate with teams, and maintain clean commit histories for organized development workflows.

EDUCATION

- B.Tech, Computer Science and Engineering** 2021 – 2025
Completed B.Tech in CSE with 7.98 CGPA, gaining practical experience through projects and internship in web development.
- Diploma, Computer Science and Engineering** 2019 – 2022
Earned a Diploma in CSE with 78.75%, along with practical exposure through project work and internship experience in web development.
- X, High School** 2018 – 2019
Completed Higher Secondary education with 84%, gaining foundational knowledge and building interest in technology through academic exposure.
Actively participated in school tech and cultural competitions.

PROJECTS

Personal Portfolio

- <https://kanu004.github.io/myPortfolio/> 
- A personal interactive portfolio showcasing all my projects, skills, and detailed information.
- Designed and developed a dynamic portfolio that provides a clean and minimal interface to present all academic, personal, and training projects.
- Each project includes a brief description and is linked for direct access and live preview.
- The portfolio also contains my resume details, skill set, contact information, and external profiles like GitHub and LinkedIn, serving as a centralized hub for all professional assets.
